

4-17-2020

Portage Lake Association Members and Friends of the PLA,

We are facing some unprecedented times with the Coronavirus situation in Michigan. It is having a dramatic impact on all aspects of our lives and it is anticipated it will most likely continue to have a significant impact for at least a year as we move forward.

The PLA is looking at all of our 2020 events to determine what impact executive orders will have on each event. We will work with other organizations to determine impact on other community events that are held in the Onekama region. We will also work with local business to assist them getting back on line and getting customers to their doors. We will use our social media tools (1,-Onekama, Michigan and Portage Lake Association face book pages), the PLA newsletter and the Onekama website (www.onekama.info) to communicate on the status of events as well as details on the event if held. Decisions will be made based on safety, whether or not we can reasonably do the event with any restrictions that may be in place and whether or not people are interested and are willing to attend the event.

We will have a better feel for what this summer is going to look like at the end of April and what events may be held, rescheduled or cancelled. Please have patience and expect an update at the end of April.

Julie Lapinski

PLA President

Al Taylor

PLA Past President
